FUNCTIONAL SUBJECTS

Functional Literacy

Functional Math

Life Skills

Each of these is great for...

Junior High

High School

Transition

Adult Education

These all use real photos!

How are functional subjects different?

The functional subjects work on similar concepts as Language Arts and Math, but use primarily **real-world texts and scenarios.**

Many of the units are aligned across core and functional subjects & can be used simultaneously to extend on various concepts.

Unit 3 Pre-test - Page 1

Unit 3

3. Circle

1. Circle the picture that matches the word or phrase:

washer

dryer

laundry

gets clothes clean

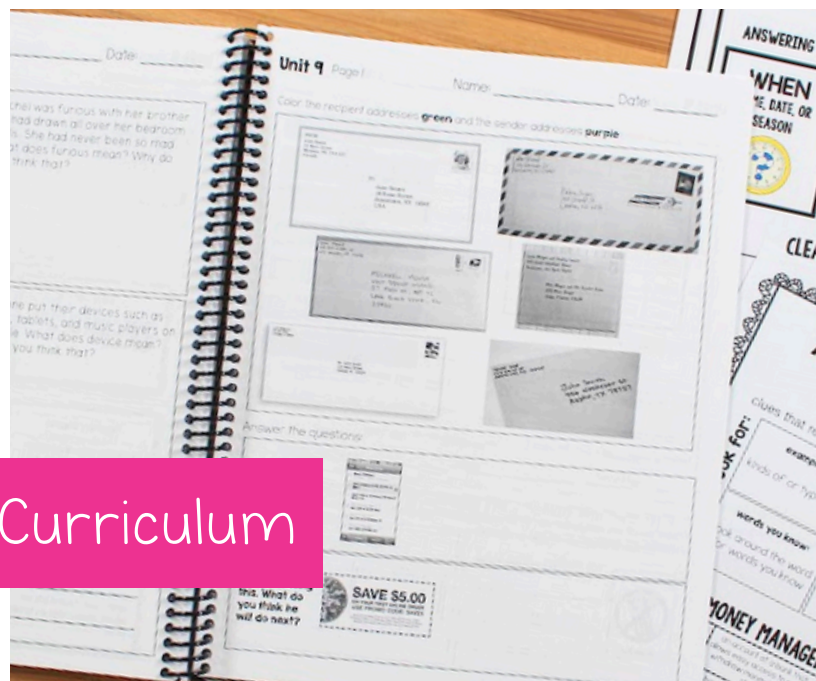

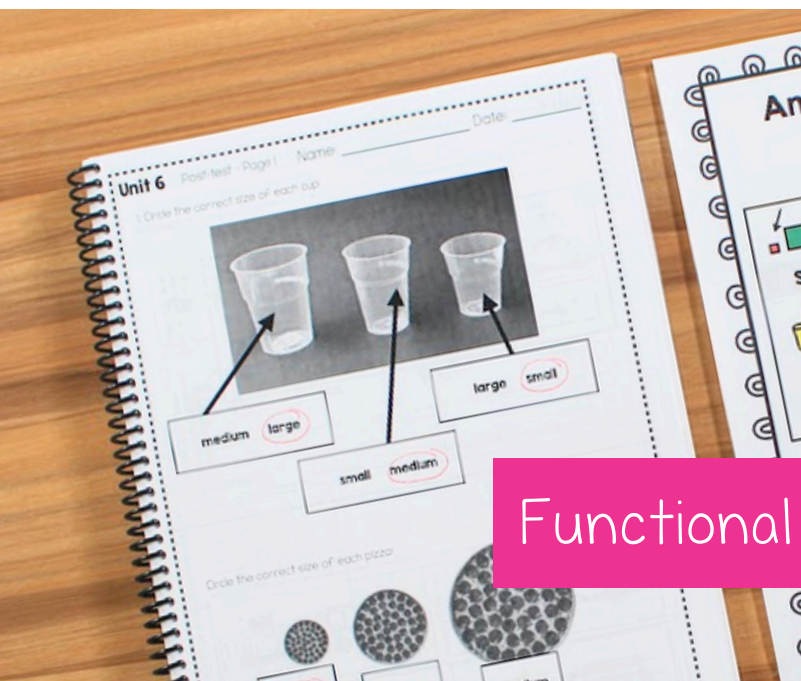

gets clothes dry

2. Circle what's missing from the outfit:

Every outfit needs:

bottoms

shoes

Functional Curriculum

What's Included:

standards alignment

implementation guides

extension activities

placement assessments

9 SUBJECT AREAS

Each subject has up to 6 levels that are differentiated for students of varying abilities

Up to 9 monthly units per level

STRUCTURED SET-UP

Routine-based

Breaks down complex concepts

Gives a path and plan for learning

EMBEDDED DATA OPPORTUNITIES

Placement Assessment System includes Digital & Printable options

Pre/Post Tests for each unit

Rubrics to guide teachers in data-based decision-making

Individualized extension activities

Data tracking in the portal

Extension Activities

Differentiation

Students can work on the same core concepts but in a method and level that works for them.

Evidence Based Practices

Our case study shows students making growth across all subjects in the curriculum.

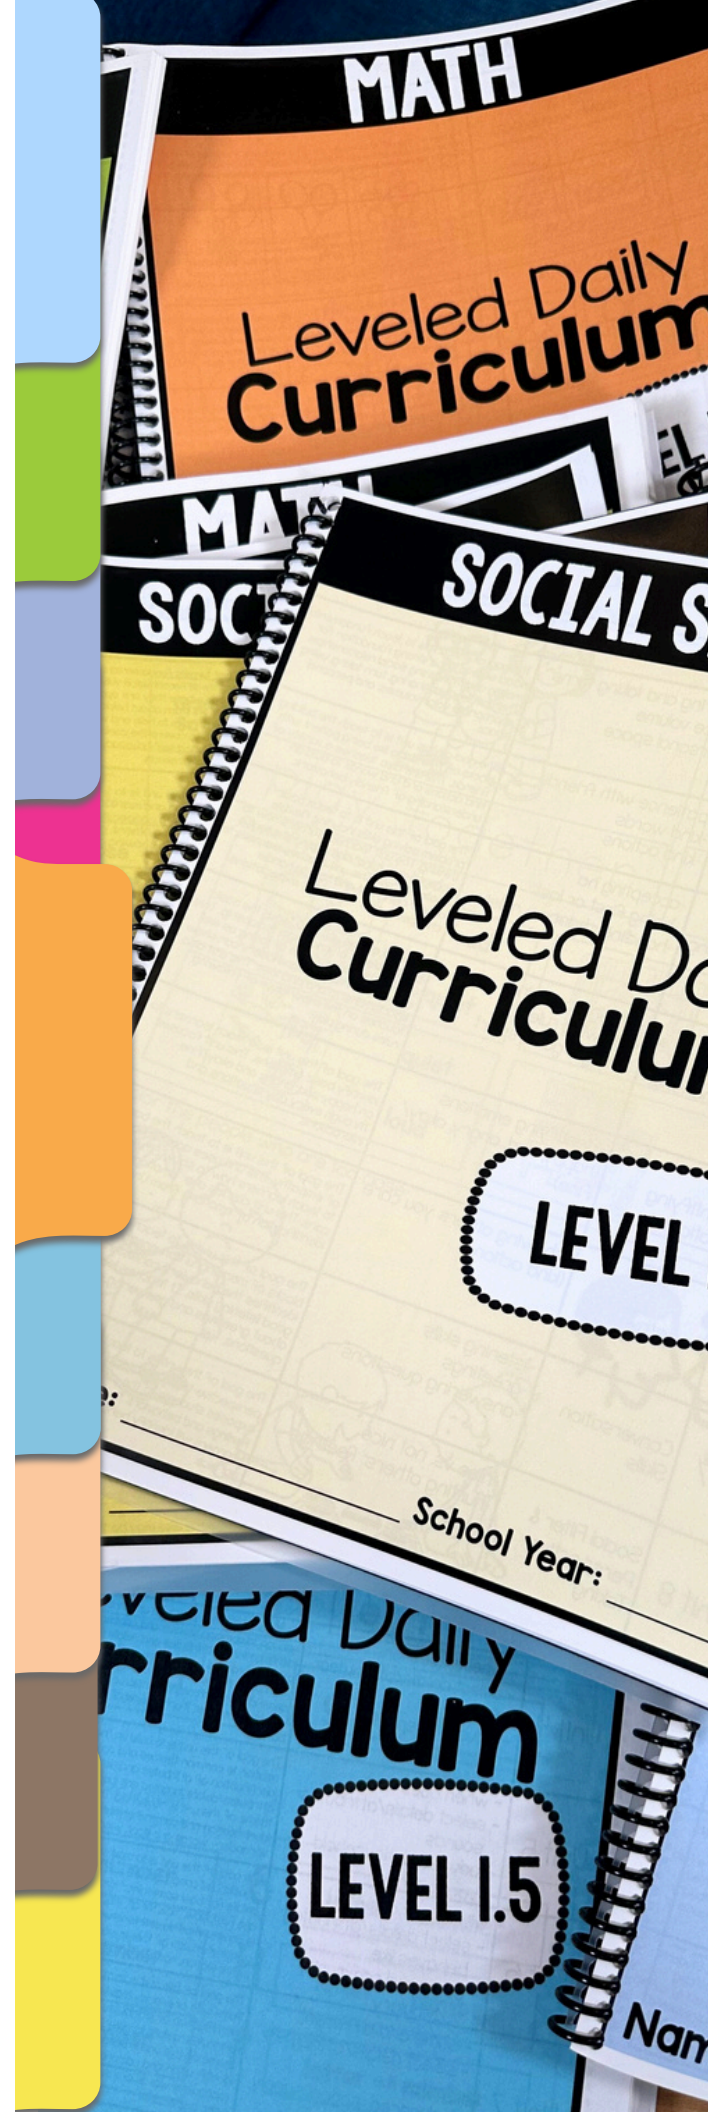

High Expectations & Rigor

Challenge students to make the most academic progress possible in all subject areas.

Curriculum is standards aligned.

TAKE A TOUR

why should we use **Curriculum ACCESS**

Special education teachers are tasked with the difficult job of providing quality instructional opportunities for an extremely wide range of types of learners.

The key to success is having access to differentiated resources, a system for how to utilize these materials, and a path towards goal mastery.

This curriculum can cover the instructional needs for students working on early childhood and elementary level skills while being age appropriate for older learners.

Curriculum Access is for schools to give their special education classrooms a method for achieving academic success.

I love that most of the units and levels are cohesive for **easy differentiation** on topics.

The extra resources and ideas are fantastic to help build the **students' skills and confidence.**

-Teacher from New Jersey

"I love how it covers grade-level material in a way that the student can really grasp and understand."

I am excited for more and more levels & subjects to come!"

-Teacher in Arkansas

EASY IMPLEMENTATION

Easy to navigate website, short training videos, clearly written out implementation guides.

IN-DEPTH SUPPORT

Curriculum Access provides each teacher with guidance and training on how to effectively utilize the curriculum to meet the needs of their unique learners.

Curriculum Access subscribers will also get access to our exclusive community to collaborate with other educators on best practices and ideas for use.
